

Capability Statement

CONSULTING · LOGISTICS · HOSPITALITY – PORT HARCOURT, NIGERIA

Celenara Group is a Nigerian professional services group headquartered in Port Harcourt, Rivers State. Our consulting division – the Group's founding practice – delivers management consulting, programme and project management, grant and proposal development, MEAL, quality management and health-systems technical assistance to public, private, development and humanitarian clients.

One standard applies across everything we do: measurable results, delivered on time, with integrity.

Core services

IMMUNISATION & PUBLIC HEALTH TECHNICAL ASSISTANCE

- NITAG establishment and technical secretariat support – governance, evidence synthesis, ministerial briefs
- Immunisation programme review to WHO/UNICEF and Gavi Joint Appraisal standards, including equity and zero-dose analysis
- Outbreak response evaluation and After-Action Review against IHR 2005 core capacities and JEE benchmarks
- Evidence reviews and GRADE methodology training

QUALITY, COMPLIANCE & MEAL

- ISO 9001:2015 QMS gap assessment, implementation and pre-certification readiness
- ISO 9001:2015 internal auditor training – two-day practical programme with mock audit
- MEAL framework design and results architecture

GRANT & PROPOSAL DEVELOPMENT

- End-to-end proposals, concept notes, logframes and budgets for foundations, bilateral and multilateral donors
- Independent red-team review against the published evaluation rubric
- Remote-first, working across time zones to submission deadlines

PROGRAMME & PROJECT MANAGEMENT

- Full project-cycle management and PMO support
- Training and institutional capacity building

Evidence of capability

Sierra Leone, 2021–2022	Africa CDC Field Coordinator and Head of Mission, embedded with the Public Health National Emergency Operations Centre. Incident coordination for a 154-fatality mass-casualty event; seven concurrent outbreak responses; contributions to the National Public Health Emergency Operations Plan, National One Health Policy and National Public Health Personnel Deployment Plan; cross-border protocol harmonisation with Liberia.
Uganda, 2025	Africa CDC Epidemiologist and National Focal Point for Case Management and IPC during the Mpox response. Designed an ISO 9001:2015 case-management audit tool adopted by Uganda's Ministry of Health .
Grant development	Contributed to a successful US\$300,000 Gates Foundation proposal .
Networks	Engagement across Africa CDC and WHO AFRO networks.

Leadership credentials

CQI/IRCA ISO 9001:2015 LEAD AUDITOR	PCQI – CHARTERED QUALITY INSTITUTE (UK)	PMP	PUBLIC HEALTH
DISASTER RISK MANAGEMENT			

15+ years strengthening quality and health-security systems across Nigeria, Sierra Leone and Uganda.

How we work

- **Documented methods.** Every engagement runs on written SOPs, red-team quality assurance review and templated delivery.
- **Controlled risk management.** Engagements are governed by a risk management plan structured on the Project Management Institute's *Standard for Risk Management in Portfolios, Programs, and Projects* (2019), with an annexed crosswalk to ISO 31000:2018 and ISO 9001:2015.
- **Custom constitution.** Memorandum and Articles of Association drawn to span consulting, logistics and hospitality.
